ACADEMIC PROJECTS

❖ Portfolio Website

My portfolio website serves as a comprehensive showcase of my educational background, services offered, past projects, and contact information. Additionally, it includes a feedback form where visitors can submit their comments and suggestions, with data securely stored in a Google Sheet using JavaScript fetch API for seamless communication.

- Technologies used- HTML, CSS, JavaScript,Google Sheets & Fonts API

- Project link

❖ Fitness Website with Form Integration

A responsive website for Sweeti Fitness, featuring a clean design with a logo, navigation bar, and contact buttons. It includes a "Join Now" section with a form for users to input their basic information. The form submits data to a Google Sheets using JavaScript fetch API for backend communication.

- Technologies used- HTML, CSS, JavaScript,Google Sheets & Fonts API

- Project Link

❖ Friend Request

A card,where a button level "Add Friend" which, when clicked, changes the status to "Friends" and changes the button text to "Remove". Clicking the button again changes the status back to "Stranger" and reverts the button text to "Add Friend"

- Technologies used- HTML,CSS,Javascript
- Project Link
